

An Educator's Guide to The

About the Challenge

The *NSTeens Challenge* is an interactive quiz best used with students in grades 5-8. Students will watch 5 animated videos, each illustrating a different Internet safety concept. After each video they will complete an activity that tests their understanding of the topic.

Topics include:

Digital
literacy

Inappropriate
content

Online
privacy

Online
predators

Cyberbullying

How to Use the *NSTeens Challenge*

We encourage you to use this interactive quiz as a final review to tests students' knowledge after your regular Internet safety lessons.

1. Teach students about Internet safety using the *NSTeens* videos, discussion guides, and activity cards.
2. Have students complete the *NSTeens Challenge* in a computer lab or at home. Plan for students to complete the challenge in one sitting – if they close the quiz window, they will have to start at the beginning!
3. Ask students to print their certificates confirming that they completed the challenge. Students can also email their certificates to you if you prefer a digital copy.

Best for: individual work
Estimated running time: 20 minutes
